

Liquid Distilling Strains from White Labs

Cultured by White Labs from our own yeast bank, these liquid strains are delivered fresh and pure. The freshness and diversity of liquid yeast can enhance the flavor of spirits, especially with rum, whiskey and brandies. Available in sizes for 50, 200 & 400 gallons. Besides the regular descriptions for the strains in our [yeast bank](#), the information in this sheet explains ideal yeast and spirit combinations.
